

November 4, 1966

To: Mr. John Merriam
Legislative Assistant, Senator Thomas Kuchel

For soundest advice European technology consult one Bill Consolazio at NSF check Herman Lewis there and two Victor McElheny London correspondent for Science magazine check Dan Greenberg Washington office. My proposal for incentive is US matching support for system of all-European universities to serve yardstick role, get away from ultra-nationalistic bureaucracies in higher education. Important to insist on hammering out European cooperation as basis of any solution to which US will contribute.

Joshua Lederberg

J.L. Tacked to Merriam 2:45 11/4/66 & gave this message orally.
